Melbourne, Victoria | davaa.tech@gmail.com | +61 0472 773 083

PROFESSIONAL SUMMARY

Dynamic and results-driven Full-Stack Developer with a Master's degree in Information Technology from Monash University. Proficient in an array of programming languages and frameworks, including Java, Python, HTML, CSS, and JavaScript, with demonstrated expertise in software engineering, UI/UX design, full-stack development, and mobile app creation. Recognized for a solid foundation in web development, coupled with a proactive approach to solving complex technical challenges. Passionate about leveraging technical skills, creativity, and adaptability to thrive in collaborative, fast-paced environments. Committed to continuous growth and delivering meaningful, high-impact solutions.

PROFESSIONAL EXPERIENCE

Software developer Intern

Nubevest LLC

Dec 2024 – Present

- Developed and maintained scalable web applications using Laravel PHP, HTML, CSS, and JavaScript, ensuring high performance and responsiveness with satisfaction of customers.
- Improving User experience and User interface through extensive testing and applying design principles, as well as implementing responsiveness across multiple devices.
- Developed and tested new features or components for software applications under the guidance of senior developers.
- Participated in debugging and troubleshooting software issues, ensuring smooth functionality.
- Implemented unit tests and conducted code reviews to ensure quality and adherence to best practices.
- Utilized Git for version control, collaborating on repositories, and managing code changes through pull requests and branching.
- Proposed innovative solutions to enhance user experience or improve system efficiency.

Software Engineer

Usukh Gurvan Togtokh LLC

March 2023 – Oct 2024

- Developed and maintained scalable web applications using React, Vue.js, JavaScript and TypeScript, ensuring high performance and responsiveness across various platforms and devices.
- Implemented microservices architecture with Node.js and Express, improving system modularity and reducing downtime for deployments.
- Utilized Docker for containerization, facilitating the deployment of applications in multiple environments and streamlining the development workflow.
- Integrated third-party APIs (e.g., Stripe, Mapbox) to enhance user functionality, enabling advanced features such as payments and location-based services.

IT Specialist

Office of Chingeltei District

Jun 2016 – Oct 2018

- Led and participated in IT projects including software and web development, system upgrades, and network expansion.
- Tested and debugged programs using various tools.
- Provided technical support and solutions to employees.
- Created and maintained technical documentation and IT-related documents such as contracts and regulations.
- Managed and maintained technological infrastructure including the organization's website, LAN/WAN networks, servers, and IOT devices.
- Conducted training sessions and workshops on new technologies, software applications, and IT policies.
